Related Programs & Initiatives

- **[Green Power Network: Buying Green Power in Your State](#)** **EXIT DSIRE**
The U.S. Department of Energy's Green Power Network provides news and information on green power markets and related activities. This site provides state-by-state information on [Green Power Marketing in Competitive Electricity Markets](#) and [Utility Green Pricing Programs](#).

In addition, the site lists marketers of [Renewable Energy Certificates](#) (RECs)(also known as green tags or tradable renewable certificates), which

represent the environmental attributes of the power produced from a renewable energy project. Whether or not consumers have access to green power through their local utility or a competitive electricity marketer, consumers can purchase RECs without having to switch electricity suppliers.

- [Wind Powering America](#) **EXIT DSIRE**

The U.S. Department of Energy's Wind Powering America site provides [state-by-state wind project information](#), including validated wind maps, anemometer loan programs, small wind guides, legislative briefings, wind working groups, and state-specific news.
